

ABSOLUTELY NO FILLERS ADDED

Pro-Bio is guaranteed to meet label claim at room temperature. (Recent testing showed up to 85% of probiotic formulas did not meet label claim, often due to exposure to heat, oxygen and moisture[†]). Each capsule of Pro-Bio is enteric coated to safely bypass the acid environment of the stomach, ensuring its delivery into the intestinal tract.*

Recommended Usage: Take one capsule per day with water. Best if taken on an empty stomach (1 hour before or 2 hours after a meal), though it may also be taken with food. More may be taken as needed.*

[†] Percentage based on 11 of 13 products tested failing to meet label claim
