

### Suggested Use:

**Infants 6 - 12 mos:** 1 softgel daily (open softgel)

**Children 1 - 3 yrs:** 1 softgel daily

**Children 4+ yrs:** 2 softgels daily

• Store in a cool, dry place, away from sunlight.

 **ChildLife Essentials® Algae DHA** is a naturally flavored, easy-to-take chewable softgel that provides your child with the omega-3 fatty acid DHA (Docosahexaenoic Acid) in the natural triglyceride (TG) form, exclusively sourced from microalgae *Schizochytrium sp.* Combined with Vitamin A and Lutein, Algae DHA supports optimal brain and eye development, structure, and function.\*

 **Health Tip:** DHA accounts for over 95% of the total omega-3 fatty acids in the brain. Since the body alone cannot produce the DHA needed to support your child's rapid growth, a healthy diet rich in DHA is vital for supporting and optimizing the development and function of your child's brain and visual systems.\*

**ChildLife®** uses only the highest quality ingredients. **Gluten free, alcohol free, casein free.** Contains no milk, eggs, wheat, yeast, or corn. No artificial colors, flavors or sweeteners.

Keep out of reach of children. Tamper resistant: Do not use if outer safety seal is broken or missing.
