LIQUID HERBAL EXTRACT

YERBA MANSA

Anemopsis californica
Whole Root

HERBAL SUPPLEMENT

1 fluid ounce (29.6 ml)

We prepare our Yerba Mansa Extract from the roots of *Anemopsis californica* plants which are **Custom Wildcrafted™** in their wild marsh habitat. To assure optimal extraction of Yerba Mansa's bioactive compounds, the roots are hand-harvested only in late summer or autumn after the aerial parts have died back, are carefully shade-dried to retain their full color & aroma, and are then thoroughly extracted.

005

Yerba Mansa Liquid Extract

Ingredients: certified organic grain alcohol (71-81%), distilled water, vegetable glycerine & Yerba Mansa extractives.

Dry herb / menstruum ratio: 1 : 4
