ATP MUSCLE BLAST

CREATINE-POWERED PRE-WORKOUT FUEL

Fully-absorbing creatine revs up muscles fast.*

CREAMY RICH BERRIES

Every workout starts with this: The best fuel to blast through the toughest workouts is the one that gives you a full creatine power boost in seconds. Feel the rush. Then chill. Your power zones are flooded with cool muscle-making building blocks.*

Best fuel, better workout: Sugar, sodium, and too much stimulants in sports drinks, protein bars, and shakes kill real muscle energy. And leave you exhausted, empty and buzzed. But creatine-fueled ATP levels trigger massive power right inside your muscles. Because it absorbs 100% in seconds.*

Maximum power, higher performance: This revolutionary new juiced creatine will make you stronger in seconds. You will be better at generating enhanced muscle power. Your whole body will be more metabolically efficient. Delayed onset muscle soreness is gone. You'll feel great. Your muscles will thank you. Your taste buds too. This stuff tastes great!*
