LIQUID HERBAL EXTRACT

STILLINGIA

Stillingia sylvatica

Fresh Root

HERBAL DIETARY SUPPLEMENT
1 Fluid Ounce (29.6 ml)

We prepare our Stillingia Extract from the fresh (undried) root of *Stillingia sylvatica* plants which are **Custom Wildcrafted™** in their wild native habitat.

To assure optimal extraction of Stillingia's bioactive compounds, the roots are hand-harvested in late autumn or early spring and are then taken directly to our laboratory and promptly extracted while still fresh and succulent.

Our Stillingia is never fumigated or irradiated.

Fresh herb / menstruum ratio: 1 : 2

Contains **certified organic grain alcohol** (48-58%),
distilled water & Stillingia extractives.
