

**Directions:** Take one capsule 1-3 times per day or as directed by your healthcare practitioner.

**Acetyl L-Carnitine** is the acetylated form of L-carnitine which is readily utilized in the Krebs Cycle (i.e., by the liver and other tissues). The acetyl group of acetyl L-carnitine is used to form acetyl-CoA, the most important intermediary in the generation of energy from amino acids, carbohydrates and fats, and has been shown to support healthy triglyceride levels.\* Acetyl L-Carnitine shuttles acetyl groups and fatty acids into mitochondria for energy production.\* It is also used to make the important brain chemical acetylcholine.\* Some studies suggest acetyl L-carnitine can even act as a neurotransmitter itself.\*

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

**Does Not Contain:** Milk, eggs, fish, shellfish, tree nuts, peanuts, wheat, soy.

**Caution:** If pregnant or lactating, please consult with your healthcare practitioner before use. Keep out of reach of children.

**Storage:** Keep tightly closed in a cool, dry place.

**This Formula Meets or Exceeds cGMP Quality Standards.**
