

Suggested Use: Adults take three capsules in AM. Children 5 and over, take one capsule. Children 10 and over take two capsules or as directed by your healthcare practitioner.

EXCLUSIVE Nutritional Formula created by Kendal Stewart, M.D. This product may assist with:

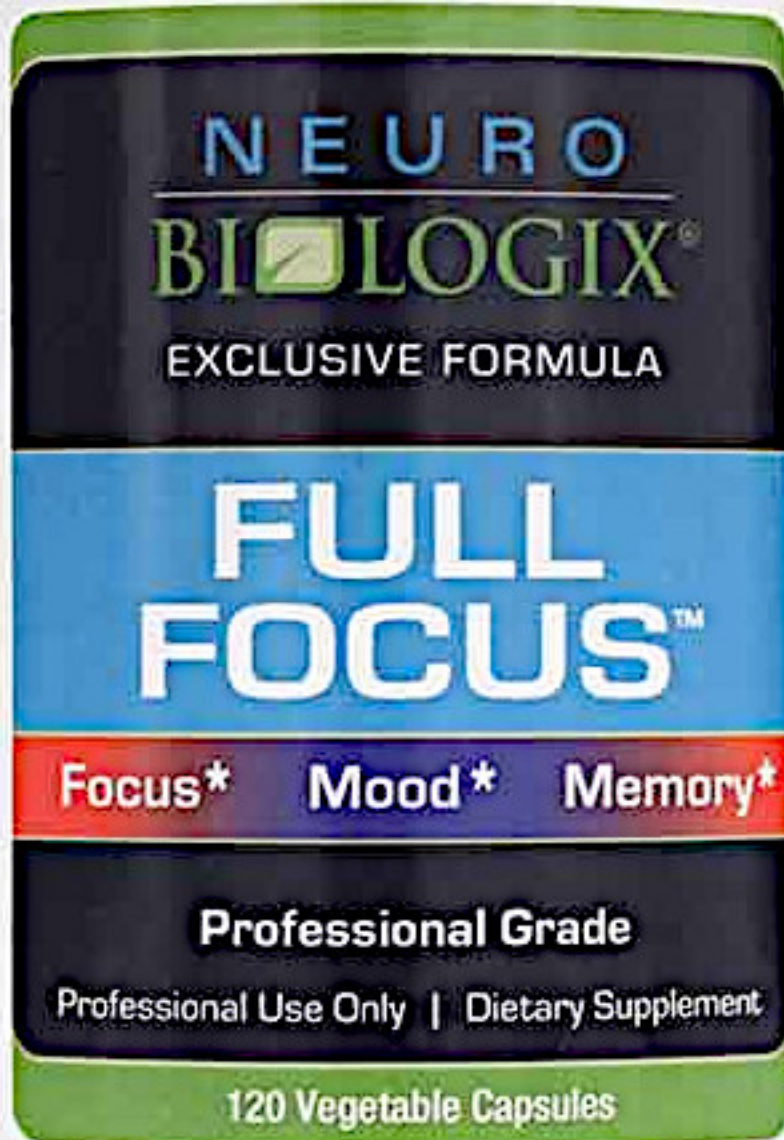

- Attention and Concentration Levels*
- Boost Cognition and Motor Activity Skills*
- Boost Visual Speed and Accuracy*
- Optimize Learning and Organization*

Full Focus* is designed to nutritionally assist in restoring normal dopamine production and improving the functionality of dopamine processing. Dopamine is the major neurotransmitter responsible for short term memory, concentration, focus, organizational skills, eye tracking, fine motor skills and mood stability*.
