

Suggested Use: Take 2 capsules daily or as directed by your healthcare practitioner.

Immune Restore+™ is a pure, high potency Beta Glucan, a glucopolysaccharide, known as beta 1,3 / 1,6 glucan. It has been shown to be a powerful immune modulator and has been shown to increase T cells and macrophage function in numerous clinical trials. In the body, it is ingested primarily through macrophage and dendritic immune cells. It binds with specific receptors (CR3) on T cells and activates anti-microbial activity by migration of immune cells to the site of a foreign challenge (chemotaxis) and supports elimination of foreign challenges (phagocytosis and oxidative burst). Key Benefits of Immune Restore+ is to support T cell activity and provide an overall powerful immune system support formula*.
