

Suggested Use: Adults take 1 capsule with food 3-4 weeks in AM then increase dosage to 2 capsules in AM if needed. Children 5 and up take 1/2 to 1 capsule in AM or as directed by your healthcare practitioner.

Mito Cell PQQ carefully combines 9 targeted nutrients that will provide the body with a variety of super anti-oxidants, minerals, and amino acids known to support the functional capability of the mitochondria. It can assist those with low energy, immune weakness, poor brain performance and overall energy production at the cellular level. The addition of PQQ and Coenzyme Q-10 (ubiquinone) as bioactive coenzymes, actively participates in the energy transfer within the mitochondria that provides the body the energy it needs.*
