

NaturaNectar Immune Guardian
30 Vegetarian Capsules

A Fresh Brand With an Understanding of the Magnificent Nature of the Honeybees.

NaturaNectar understands the nature and science behind the beehive and finds its inspiration there. With the same focus and dedication of the honeybees, our company is dedicated to bringing innovation and natural quality to our customers while committing corporate resources to the important research needed to ensure that honeybees continue to be one of nature's true marvels as well as supporting the surrounding communities that help to harvest our bee propolis in a sustainable way. We invite you to learn more at BeeThereInitiative.com.

Quality from the Source.

NaturaNectar's sister company ALMAR Apiary is on location in Brazil at the source of the world's finest and purest bee propolis. For over a decade, we have worked together to develop the tap into the best selection of bee propolis available anywhere in the world and are proud to now offer it directly to you. Groundbreaking products are now at your fingertips directly from the Brazilian honeybees and their bio-diverse forests!

30+ Years Perfecting the Most Advanced Standardized Propolis Extracts

The reputation for quality of Solomon Propolis™ extracts in Scandinavia is over 30 years in the making due to the undisputable scientific evidence and grade as natural medicines. Through our partnership with PRC-Propolis Research Center, these standardized, 100% water-based pure extracts have become the foundation of NaturaNectar™ and its extensive product line.

Capturing the Power of the Beehives' Immune System and Offering It to You!

NaturaNectar Immune Guardian™ is derived from an all natural Scandinavian formula using Solomon Propolis™ original recipe. Each vegetarian capsule delivers 150 mg of the purest flavonoids from the highest quality bee propolis found anywhere in the world, the Brazilian Bee Propolis.

How the Beehives' Immune System Can Work for You:

Honeybees select certain plants near their hives to collect resin from to produce what is known as propolis. The propolis becomes the immune system for the entire bee colony, protecting it from germs and bacteria and making the inner-hive one of the most sterile environments known to man. It's not a surprise that propolis is known around the world for its immune system support* properties.

An exclusive propolis extract - FLAV™ M - made of a blend of pure flavonoids of 100% Brazilian propolis which includes Red and Green Propolis.

A geographically diverse source of bee propolis flavonoids: Brazil is the fifth largest country of the world in territory and Immune Guardian uses flavonoids originated from plant resin collected by honeybees throughout Brazil's biodiverse forests.

An ingredient - FLAV™ M - that has been scientifically studied to provide immune system support* and is standardized through a patent protected process to yield a minimum of 50 mg/g of total flavonoid content.
