

A Fresh Brand With an Understanding of the Magnificent Nature of the Honeybees.

NaturaNectar understands the nature and science behind the beehive and finds its inspiration there. With the same focus and dedication of the honeybees, our company is dedicated to bringing innovation and natural quality to our customers while committing corporate resources to the important research needed to ensure that honeybees continue to be one of nature's true marvels as well as supporting the surrounding communities that help to harvest our bee propolis in a sustainable way. We invite you to learn more at BeeThereInitiative.com.

Quality from the Source.

NaturaNectar's sister company ALMAR Apiary is on location in Brazil at the source of the world's finest and purest bee propolis. For over a decade, we have worked together to develop the tap into the best selection of bee propolis available anywhere in the world and are proud to now offer it directly to you. Groundbreaking products are now at your fingertips directly from the Brazilian honeybees and their bio-diverse forests!

30+ Years Perfecting the Most Advanced Standardized Propolis Extracts

The reputation for quality of Salomon Propolis™ extracts in Scandinavia is over 30 years in the making due to the undisputable scientific evidence and grade as natural medicines. Through our partnership with PRC-Propolis Research Center, these standardized, 100% water-based pure extracts have become the foundation of NaturaNectar™ and its extensive product line.

Bee Propolis is the Best Gift from The Honeybees to Your Health

It's not a coincidence that propolis means (pro= before) + (polis=city). An amazing substance that is strategically placed by honeybees before their hives to serve as the defender of the hive. As a consequence, the beehive is one of the most sterile environments known by man even at high degrees of temperature and humidity. That's why millennia civilizations have relied on bee propolis to support their health.*

Around the world the Brazilian Green Bee Propolis is appreciated for its therapeutic properties backed by hundreds of scientific studies indicating the richness of its flavonoid content and antioxidant activity.*

Only in NaturaNectar™ Green Bee Propolis:

Specific flavonoids that act as antioxidants to protect delicate nerve cells and support overall brain health.*

Support for your heart and circulatory health and, when used as part of your diet, can help maintain healthy blood sugar levels.*

Brazilian Ultra Green Propolis obtained from the best producing areas of the State of Minas Gerais with its fields covered with "alecrim do campo" (Baccharis dracunculifolia), the plant honeybees collect Ultra Green Propolis resin from.

Green Extraction is our patent protected and exclusive extraction method that obtains pure flavonoids from bee propolis while eliminating nearly all the impurities and beeswax. Only water is used. No chemicals.
