GNC Triple Strength Fish Oil Plus CoQ-10 combines two premium ingredients that support heart health.*

Triple Strength Fish Oil

Our Triple Strength Fish Oil is packed with Omega-3s, including EPA, which is clinically shown to support heart health.* What's more, EPA supports circulatory health, as well as normal, healthy triglyceride and cholesterol levels, joint health and the body's natural anti-inflammatory response.*

Omega-3s also provide support for healthy vision, brain development and skin health.*

CoQ-10

CoQ-10 helps support heart health and a healthy cardiovascular system. Plus, CoQ-10 is beneficial for those taking statin drugs.**

[†] Consumption of Omega-3 fatty acids may reduce the risk of coronary heart disease. FDA evaluated the data and determined that, although there is scientific evidence supporting the claim, the evidence is not conclusive.

* Statin drugs can reduce the amount of natural CoQ-10 within the body. Supplementing with CoQ-10 helps replenish CoQ-10 levels within the body. CoQ-10 is not a statin replacement and does not lower cholesterol. Consult your doctor before discontinuing any medications when taking CoQ-10.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

OUR QUALITY COMMITMENT TO YOU

Since 1935, our mission as the industry leader has been to provide you with the highest-quality nutritional supplements. We continue to stand behind this mission. If you're not 100% satisfied with your purchase, return the unused portion of the product with your receipt within 30 days and we'll either refund your money or find you a replacement product that is right for you.
