

Enzyme deficiencies may result from a combination of age, diet and lifestyle. These deficiencies can lead to a variety of digestive discomforts, including occasional gas, bloating, irregularity and indigestion.

Fortifying the digestive system with enzymes and probiotics may promote optimal digestion while maintaining the digestive system's natural balance to support overall digestive health.*

Digest Gold™ +Probiotics contains an advanced enzyme formula that breaks down carbohydrates, fats, fiber and protein.* Probiotics provide additional digestive support by boosting enzyme production and promoting regularity.*

Recommended Use: Take 1 capsule with each meal. More may be taken as needed.

Thera-blend™ enzymes are comprised of multiple variants which are blended to work synergistically throughout the broad pH range of the human body.

[†]When taken three times daily.
