DIETARY SUPPLEMENT

100% L-GLUTAMINE

MRI® Performance Glutamine is a flavorless, easy-mixing powder and an extremely versatile free form amino acid formula. Glutamine is the most abundant, naturally occurring amino acid in muscle tissue, but it can be depleted during prolonged training. Supplementing with MRI® Performance Glutamine replenishes depleted stores, to help build new lean muscle and protect hard-earned gains, by supporting protein synthesis - the manufacturing of new muscle proteins. L-Glutamine also supports acid-base homeostasis. MRI® Performance Glutamine supports post-workout muscle energy repletion, volumization and repair. This “conditionally essential” amino acid functions as a critical factor in muscle form and function.†

WARNING: Consult your healthcare professional prior to use if you have or suspect a medical condition, are taking prescription drugs, or are pregnant or lactating.

KEEP OUT OF REACH OF CHILDREN. AVOID STORING IN EXCESSIVE HEAT.

†These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Suggested Use: As a dietary supplement, take one rounded teaspoon per day. This product is flavorless and dissolves in water or your favorite beverage.

** This product is to be used in conjunction with a healthy diet and exercise regimen.
