To assure optimal extraction of Blue Flag's bioactive compounds, the rhizome (with roots) is hand-harvested in late autumn or early spring and is then taken directly to our laboratory and promptly extracted while still fresh and succulent.

We prepare our Blue Flag Extract from the fresh (undried) rhizome & roots of *Iris versicolor* plants which are **Custom Wildcrafted™** in their natural wild habitat.

LIQUID HERBAL EXTRACT

BLUE FLAG

Iris versicolor

Fresh Rhizome & Roots

HERBAL SUPPLEMENT

1 fluid ounce (29.6 ml)

Blue Flag Liquid Extract
