WARNING: This product is intended to be consumed by healthy adults 18 years of age or older. Do not use if you are pregnant, nursing, taking any prescription or over-the-counter medications or supplements, or if you have or suspect you may have a medical condition. As with any dietary supplement, consult a healthcare professional before using this product. Discontinue 2 weeks prior to surgery. Immediately discontinue use and consult a healthcare professional if you experience any adverse reactions. KEEP OUT OF REACH OF CHILDREN.

Store at 59-86°F (15-30°C). Protect from light and moisture.

THE OBJECTIVE:

In order to lose body fat, not only do you have to stimulate the breakdown of adipose tissue, you need to get the fat to the mitochondria of the cell to be metabolized. Enter BASIC TRAINING SERIES L-Carnitine. L-carnitine helps to transport fatty acids to the mitochondria of the cell so it can be 'burned' as fuel. Keep the fat burning furnace stoked with BASIC TRAINING SERIES L-Carnitine.*

L-CARNITINE SUGGESTED USE:

As a dietary supplement, take 1 tablespoon of L-Carnitine per day either before breakfast or 30 minutes prior to your workout. For best results combine with a calorie reduced diet and regular exercise plan.
