

A Heritage of Purity & Potency

For over 30 years Herb Pharm has earned our customers' trust by making pure and potent botanical medicines. We've always understood that the integrity of our products directly affects your health and vitality.

Our extracts capture the flavor, aroma and broad-spectrum medicinal profile of the original plant, and we don't spike our products or otherwise meddle in Nature's intentional balance.

Our herbs must pass therapeutic profile analysis, sensory and macroscopic evaluation, as well as pesticide, herbicide, allergen, heavy metal and microbiological screening.

We use only clean ingredients. We never use synthetic solvents like hexane, methanol and petroleum ether. And, we don't add unnecessary binders, fillers, colors or preservatives.

For consistently safe and effective healing herbs, Herb Pharm has always been the gold standard.

Arnica Liquid Extract

Caution: Do not use during pregnancy, if trying to become pregnant or while nursing. Not for use in excited nervous states, gastrointestinal irritation, acute inflammation or high fever. Consult expert medical advice before using in children under 15 years of age, asthma, the aged and severely weakened individuals. Do not exceed recommended dose and limit internal use to two consecutive weeks followed by a two week break. Do not use on broken or abraded skin. Discontinue use if irritation appears on skin or in mouth, throat or stomach. Prolonged topical use or use on broken skin may cause skin irritation.

Do not use if seal is broken or missing.

Keep bottle tightly closed and store away from heat & light.

Arnica Liquid Extract

Ingredients: certified organic alcohol (66-76%), distilled water & Arnica extractives.

GLUTEN-FREE

Dry herb / menstruum ratio: 1 : 10

We prepare our Arnica Extract from the whole flowers of *Arnica montana* plants which are **Certified Organically Grown** and/or **Sustainably Wildcrafted** in their native, high mountain habitat.

To assure optimal extraction of Arnica's bioactive compounds, the plants are hand-harvested when in full flower, are carefully shade-dried to retain their full color & aroma, and are then thoroughly extracted.
