

Suggested Usage: As a dietary supplement, take one Vcap® 1 to 2 times daily, preferably with meals.

Policosanol is a blend of long-chain fatty alcohols (LCFA) derived from sugar cane, a superior source of these natural plant waxes. Non-clinical studies have shown that the fatty alcohol constituents in Policosanol possess considerable antioxidant activity, can protect serum lipids against free radical attack, and support healthy immune function. Policosanol can support healthy immune function. Policosanol can support cardiovascular health through these and other mechanisms.*
