

Echinacea/Goldenseal

Herb Pharm's Echinacea/Goldenseal is an active immune response formula blending 10 liquid herbal extracts.

The herbs in Echinacea/Goldenseal are either Certified Organically Grown or have been ethically harvested in their natural habitats and verified for purity. Each herb is masterfully extracted according to its unique bio-chemical properties to ensure a broad spectrum and natural ratio of health-promoting compounds as found in the plant's original state.

As with all herbal remedies, the effectiveness of this compound is enhanced by other simple and common healthy practices, such as plenty of rest and fluids. Broth and light soups can be very helpful, providing nourishment, extra fluids and heat to the body.

Caution: Seek expert medical advice before taking during pregnancy or nursing.

Echinacea/Goldenseal
