

GLUTAMINE-SR

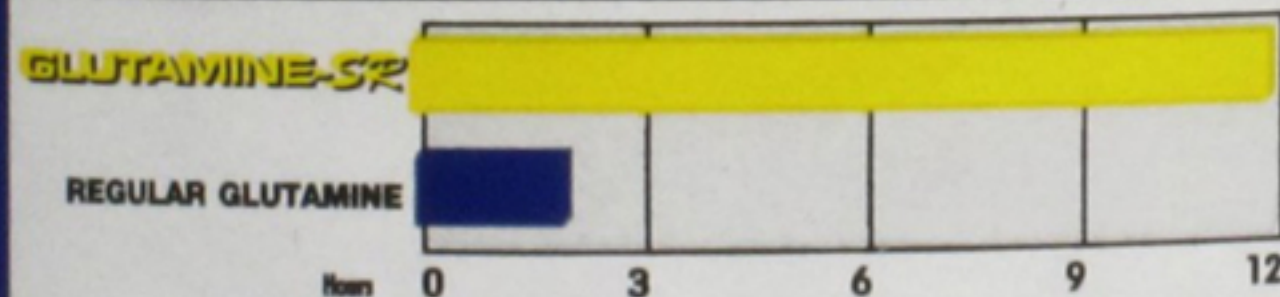

Exclusive Sustained Release Micro-Feed Technology:

Glutamine-SR's Micro-Feed Technology allows for an unprecedented 100% of L-Glutamine utilization, maximizes anabolic/anti-catabolic effects and optimizes muscle growth and recovery. Research on leading brand supplemental L-Glutamine powder has shown that the stomach

utilizes 70% of the amount ingested, leaving only 30% available for delivery to muscle tissue. The exclusive and patented Micro-Feed Technology used in Glutamine-SR protects the L-Glutamine as it is transported through the stomach and increases the amount delivered to muscle tissue. The Micro-Feed Technology also increases bio-availability and utilization of L-Glutamine by providing a controlled, steady supply for 12 straight hours. Glutamine-SR's 12 Hour Sustained Release Micro-Feed Technology has raised the standards in glutamine supplementation, making Glutamine-SR the most bio-efficient and powerful Glutamine supplement in the world.*

12 HOUR
Muscle Feeder

**When Other Glutamine Products
Stop Working, Glutamine-SR Continues to Feed
Muscle Tissue For 12 Straight Hours!**

- The Patented Micro-Feed Sustained Release Technology provides an immediate and continual supply of Glutamine for 12 hours.
- Regular Glutamine delivers only 30% of the amount consumed and supplies muscle tissue for only 2 hours.

Anabolic/Anti-Catabolic Bio-Efficient Glutamine
