## Multivitamin

PRENATAL

PLUS IRON

Support for mom and baby before, during and after pregnancy. This formula features a balanced nutritional blend of vitamins, minerals and antioxidants.

### ✔ Fetal Development

Provides 1000 mcg of folic acid, which, as part of a healthy diet, may reduce the risk of brain and spinal cord birth defects when taken before and during pregnancy. It's also required for cell growth and DNA formation.\*

### ✔ Bone Health

Features 600 mg of calcium, which is especially vital during the third trimester when your baby's bones begin to calcify. If a mother's calcium level drops, her body can pull calcium from her bones, which can result in loss of bone density.\*

### ✔ Iron

Contains 18 mg of iron. Iron plays a crucial role in the formation of healthy red blood cells, which are essential to support placental and fetal needs and a mother's increased blood volume.\*

### ✔ Antioxidants

Has antioxidants for protection from harmful free radicals.\*

### OUR QUALITY COMMITMENT TO YOU

Since 1935, our mission as the industry leader has been to provide you with the highest-quality nutritional supplements. We continue to stand behind this mission. If you're not 100% satisfied with your purchase, return the unused portion of the product with your receipt within 30 days and we'll either refund your money or find a replacement product that is right for you.
