BERGAMOT 375

Supports Healthy Cholesterol Metabolism
and Cardiovascular Health

BERGAMOT 375 provides a standardized extract of bergamot (*Citrus bergamia*), a citrus fruit that is native to southern Italy and recognized for its rich content of protective compounds. Bergamot has been used for centuries for its wide-ranging health benefits and it is the well-known flavor of earl grey tea. Our uniquely standardized extract of bergamot fruit is rich in protective compounds that are intended and targeted to support healthy cholesterol metabolism thereby supporting heart and cardiovascular health. Given the important role that cholesterol metabolism plays in heart health, our **Bergamot 375** is a common sense, natural addition to supporting cardiovascular health.
