GINKGO 120

plus

GINSENG 200

Supports Memory and Brain

Combats Fatigue and Stress

GINKGO 120 plus **GINSENG 200** is a unique blend of the highest quality standardized extracts from two of Traditional Chinese Medicine's most respected botanicals. Ginkgo and ginseng offer a long list of extensive benefits and together, they support the brain, memory and cognitive function, as well as combat fatigue and promote feelings of well-being. Ginkgo biloba is the most heavily researched botanical for enhanced memory and brain function; however, not all ginkgo is created equal and our ginkgo is validated to meet the *clinical standard* for its most important beneficial compounds. Like ginkgo, panax ginseng has also been used for thousands of years and is viewed as the preeminent *adaptogen* for its ability to help us *adapt* and combat stress and fatigue while promoting well-being and a positive outlook. Our ginseng is delivered as a standardized extract many times more potent than typical ginseng. Our unique combination of ginkgo and ginseng offers two of Traditional Chinese Medicine's most potent, popular and effective plant-based ingredients. We then add a balanced blend of B-complex and vitamin C to ensure optimum benefits. The resulting formula is a natural tool to help contend with age-related changes in memory and mental function, as well as everyday challenges to positive outlook and well-being caused by stress and fatigue. These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

CONTAINS NO ADDITIVES OR COMMON ALLERGENS
