GINSENG 200™

Nature's Preeminent Adaptogen

**Combats Fatigue and Stress
Balanced B-Complex**

GINSENG 200 delivers an ultra-concentrated, standardized extract of the Panax (Asian) ginseng plant. True Panax ginseng has been one of the most respected and prized botanical extracts for centuries. It is viewed as the preeminent “adaptogen,” which refers to a supplement’s ability to promote well-being through its ability to combat stress and balance bodily functions. It is Panax ginseng’s remarkable adaptogenic properties that have made it America’s most widely consumed botanical supplement. Also, more than simply providing dried ginseng, our **Ginseng 200** delivers a unique, concentrated, standardized extract (20% ginsenosides), which is many times the potency of typical supplements. We then combine it with a high potency B-complex with high levels of B12 to support ginseng’s ability to combat fatigue and stress while also supporting the immune and nervous systems. Andrew’s **Ginseng 200** allows you to enjoy the benefits of pure, concentrated, standardized ginseng in a small, soft, easy-to-swallow capsule that is gentle to even the most sensitive stomach. Plus, you get the additional benefits of a high potency, balanced B-complex.
