LIVER ANTI-OXIDANT EXTRACTS™

Milk Thistle (Silymarin & Silybins)
Turmeric (Curcumin) · Artichoke

LIVER ANTI-OXIDANT EXTRACTS is a unique blend of plant extracts and nutrients formulated for optimum liver health. It includes Milk Thistle, Turmeric and Artichoke extracts, each standardized for their most beneficial compounds. The liver is our largest and perhaps our hardest working organ, laboring constantly to maintain a healthy internal environment. The liver processes all alcohol, drugs and chemicals that enter our body, while metabolizing cholesterol, fat, sugar and protein. In short, good health requires a healthy liver. This formula begins with our unique Milk Thistle extract standardized for high levels of Silymarin in the form of a highly active Phospholipid Complex. Silymarin has been valued and respected for centuries and has now been clinically shown to help protect liver cells from damage while also promoting the liver's natural regenerative capacity. Our Milk Thistle is enhanced by specifically standardizing it for Silymarin's most active and important components, Silybins. We then add our activated Curcumin Phospholipid Complex with its enhanced absorption of its high levels of protective Curcuminoids. Like Milk Thistle, Turmeric possesses a myriad of protective, regenerative and detoxifying benefits for the liver. Lastly, we add Artichoke extract standardized for Cynarin, as well as key B-vitamins to ensure the liver has all the protection and support it needs to perform its vital work.
