WORLD HEALTH™

12 International Extracts

Turmeric • Garlic • Grape Seed • Green Tea
Resveratrol • Cranberry • Bilberry • Broccoli

Dietary Supplement | **360** Easy-to-Swallow Capsules

WORLD HEALTH concentrates on the goodness that Mother Nature delivers in the world's healthiest foods. For centuries, certain foods from around the world have been associated with good health, and **World Health** delivers concentrates of twelve standardized extracts from those foods that have now been scientifically established as providing a multitude of protective and beneficial phytonutrients. **World Health** begins with our unique deodorized Garlic, which delivers high levels of Garlic's most protective sulfur-based compounds – Allicin and Alliin. We do so without the odor, stomach upset and unpleasant aftertaste typical of garlic products. We also include the powerful protection of Cranberry, which has been used traditionally for centuries and confirmed to promote urinary tract health. **World Health** also contains our exceptional standardized extract of Green Tea, which is the most popular and traditional healthy beverage throughout Asia. It is also the most concentrated dietary source of the protective polyphenol Epigallocatechin Gallate (EGCG). In addition, **World Health** delivers standardized extracts of Bilberry to support eye health, along with the powerful protective compounds present in extracts of Red Wine, Grape Seed, Grape Skin, Apple Polyphenols, Citrus Bioflavonoids, Broccoli and Turmeric. The latter is present as our highly absorbable Curcumin-Phospholipid Complex. This blend of standardized extracts is designed to protect our most vital organs and systems from the broadest range of damaging free radicals.
