

DAILY
Probiotic
DIETARY SUPPLEMENT

Spring Valley™ Daily Probiotic helps support a healthy balance of beneficial bacteria in the digestive system, promoting digestive and immune system health.† For maximum effectiveness, this product has been formulated with probiotic strains that are resistant to stomach acids and delayed release capsules that can help protect the probiotic strains from that harsh stomach acid until they reach the small intestine.†

- Formulated for daily use
- Provides 4 Billion Live Cells per delayed release capsule*
- Includes inulin prebiotic fibers
- Contains 10 probiotic strains

What Are Probiotics?

The human digestive system is home to trillions of good bacteria that are beneficial for numerous vital body functions, including healthy digestion.† However, stress, travel, aging, and bad diets can disrupt your body's digestive system balance. Probiotics are the "friendly" bacteria that may be helpful for maintaining digestive balance and a healthy immune system.† Probiotic strains can be from different species of bacteria, each of which may provide different health benefits.†
