## Potent Energy Booster

Vitamin B12 is essential for many critical functions in the body, including energy production, DNA synthesis, brain and nervous system functioning, and blood formation.

Suboptimal B12 levels are often responsible for anemia, asthma, Crohn's Disease, depression, diabetes, male infertility and osteoporosis. Zahler's B12 Energizer™ includes Folic Acid, a B vitamin which helps the body digest and utilize proteins, and should be taken daily by everyone, especially by women of child-bearing age, to prevent serious birth defects.
