PRO PERFORMANCE

You should never sacrifice taste in order to find a good protein. GNC Pro Performance® Decadent Delight™ is our best-tasting protein, HANDS DOWN! This sinfully, decadent protein provides your body with the pure, clean, high-quality ingredients without guilt! Each delicious serving supplies 24 grams of ultra-high-quality protein that you need to fuel muscles while maximizing recovery. The incredible flavor and rich, creamy milkshake taste and consistency are reminiscent of an old-time ice cream parlor treat.

THE PRO PERFORMANCE® RESULTS ADVANTAGE

When GNC's team of research scientists were challenged to develop a family-friendly protein formula that had an unbelievable great taste without seeing the sugars, carbs and fats go through the roof – they knew it would be tough.

Don't let the great taste fool you! GNC Pro Performance® Decadent Delight™ still provides the essential benefits of protein. Protein is essential in any nutrition regimen, regardless of age or activity, providing a catalyst to the body for protein synthesis and muscle growth. Its intake is crucial to support muscle growth and helps maintain a positive nitrogen balance in the body. Your muscles can only grow when your body retains enough nitrogen, and one of the most effective sources of nitrogen for fueling lean muscle mass is protein. The 5 sources of protein found in this formula deliver naturally occurring anabolic amino acids into your bloodstream. This spike in amino acids provides nitrogen and subsequently creates a nitrogen-rich environment needed for maximum muscle protein synthesis. Protein synthesis is crucial to the building of lean muscle mass. The nitrogen factor of this product is 24.

THE PRO PERFORMANCE® QUALITY ADVANTAGE

GNC Pro Performance® Decadent Delight™ has also been tested and certified to be free of banned substances, providing peace of mind in the highest quality formulation. Our researchers created a superior whey protein formula that not only delivers rapid muscle-fueling results, but every formula has a satisfying, delicious, flavor profile. This formula also features additional fiber to improve digestive function and promote fullness, while the carbs work synergistically with the rest of the ingredients to replenish muscle energy. Not only is this product delicious, but it has no overstated protein values from amino acids, cheap fillers or extenders – only the real protein grams per serving!
