

Mass Amino Acids is an advanced amino acid nitrogen technology used by natural physique athletes to support the building and preservation of lean muscle mass.* Distinguishing features:

- Perfect for hard gainers, natural physique athletes, the 40+ (40 years and over), and anyone else committed to doing whatever it takes to make their muscles bigger, fuller, harder and stronger, naturally.*
- Reduces loss of muscle mass and strength during fat-loss or cutting diets and layoffs from training, and helps you "regain" muscle faster afterwards.*

* These statements have not been evaluated by the food and drug administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Use: Take 4 tablets daily with a meal.

For maximum results:

- Take 1 tablet per 10 lbs of bodyweight per day.
- Divide your daily allotment of tablets into smaller doses.
- Take each dose with meals and while working out.
- Example: A 180-lb athlete would take 18 tablets per day. This allotment might be divided into 4 tablets with each of 3 meals (12 tablets total) plus 6 tablets while working out.

"The Stack of the Century": For years, Beverly customers have been telling us that the combination of Mass Amino Acids and Ultra 40 is the most effective stack they've ever used. Try it for even more dramatic gains.
