

Premium Grade Omega 3

Omega 3 is an essential fatty acid; essential, because the body requires it but cannot produce it on its own. Omega 3's benefits come primarily from DHA and EPA. DPA is the subject of research and may be associated with specific health benefits not conferred by EPA and DHA.

Zahler's Omega 3 Platinum™ contains Omega 3 fatty acids derived exclusively from wild caught Menhaden fish from certified, sustainably managed US fisheries. Omega 3 Platinum™ is refined, purified and encapsulated in the USA.

You may need additional supplements to support a healthy diet; consult your nutritionist for a formula that is right for you, or call us toll free at 877-ASK-ZAHLER (877-275-9245).
