softgels daily with
food or as directed
by a health care
practitioner.

Premium Grade Omega 3 + Vitamin D

Omega-3 is an essential
fatty acid (EFA); essential,
because the body
requires it but cannot
produce it on its own.

Omega 3's benefits
come primarily from
DHA (docosahexaenoic
acid) and EPA
(eicosapentaenoic acid).

With a super-high
concentration and the
optimal 3:2 ratio of EPA/
DHA, plus a robust dose
of Vitamin D, Zahler's
Omega 3+D Platinum™
is the most effective
supplement for people
who do not get adequate
levels of vitamin D and
omega-3 fatty acids via
their regular diet.
