Gut Connection® contains 630 mg per day of clinically researched EpiCor®.

Why?

EpiCor® is a whole food fermentate probiotic that balances and strengthens your gut by **boosting its levels of good bacteria** to promote health every day.††† Made using a fermented whole food yeast (*Saccharomyces cerevisiae*), it captures a complex array of beneficial nutrients through the process of fermentation. Each daily serving will improve your gut and your health—it's all connected!†††

A healthy gut has more than 10 trillion bacteria! Gut Connection® is different because it does not provide probiotics, so you can take it alone or with your favorite probiotic. This allows your body to create its own healthy bacteria.†††

†Based on results from a study using a dynamic model representing GI digestion.
