Gut Connection® contains 630 mg of clinically researched EpiCor®.

Why?

EpiCor® is a whole food fermentate probiotic that balances and strengthens your gut by **boosting its levels of good bacteria** to promote health every day.^{Δ**} Made using a fermented whole food yeast (*Saccharomyces cerevisiae*), it captures a complex array of beneficial nutrients through the process of fermentation.

Each daily serving will improve your gut and your health—it's all connected!Δ**

A healthy gut has more than 10 trillion bacteria! **Gut Connection® is different because it does not provide probiotics**, so you can take it alone or with your favorite probiotic. This allows your body to create its own healthy bacteria.^{Δ**}

ΔBased on results from a study using a dynamic model representing GI digestion.
