

Cardiovascular Power!

When it comes to healthy aging, nothing is more important than the health of your heart! And the best way to keep your heart healthy is a diet rich in red fruits and vegetables. Unfortunately most of us are not getting enough, which can lead to a weaker immune system, low energy and libido, brain fog, even higher blood pressure. That's why we created LiveGood Super Reds! Our Organic Super Reds contain the highest amount of fruit and vegetable extracts known to help improve blood flow by increasing our body's production of Nitric Oxide, boosting blood circulation, supporting brain and cognitive function, sexual health, heart health, immune function and helping to maximize your body's overall health!

Caution: Pregnant or nursing women, children under the age of 12, and anyone who is or has been under the care of a physician are advised to consult a health care professional before using this product.
