IMMUNE MUSHROOM COMPLEX
ORGANIC FULL-SPECTRUM
Turkey Tail • Reishi • Chaga • Maitake
Shiitake • Cordyceps • Agaricus

IMMUNE MUSHROOM COMPLEX is a balanced, comprehensive blend of seven mushrooms typically consumed by those seeking to promote optimum immune system function and health. Our **Immune Mushroom Complex** is an organic full-spectrum blend of both above-ground fruiting bodies, along with below-ground mycelium from **Turkey Tail, Chaga, Maitake, Shiitake, Reishi, Cordyceps** and **Agaricus**. Mushrooms are incredibly unique. There are truly no other living things like them. They are neither animal nor plant but separately classified as fungi. They have been an important part of the human diet since prehistoric times and have been used in traditional medicine for thousands of years. Our unique full-spectrum blend of seven carefully selected mushrooms was based upon their long history of traditional use, along with scientific validation of their role in modulating and promoting a healthy, balanced immune system response. These mushrooms are rich in a myriad of natural compounds with demonstrated immune system promoting activity, as well as microbiome enhancing and detoxifying properties. If you seek what experts consider to be the premier, broad-spectrum blend of the most important immune enhancing mushrooms then look no further than our organic seven mushroom **Immune Mushroom Complex**.
