GNC ULTRA MEGA® GREEN MEN'S SPORT VITAPAK® PROGRAM

GNC Ultra Mega® Green Men's Sport Vitapak® Program is scientifically designed and offers a convenient, green foods enhanced nutritional program that combines essential vitamins and minerals with plant and whole food based ingredients to support the optimal health of active men. Emerging research suggests that including green foods as part of a healthy nutritional plan can have a variety of health-enhancing effects and can help support overall wellness. This nutrient-dense whole food enhanced multivitamin formula has been designed to supply nutrition for physically active men.

- **Ultra Mega® Green Men's Sport Multivitamin** – A premium green foods multivitamin designed specifically for active men. This formula provides a superior blend of vitamins and minerals combined with essential antioxidants, enzymes and phytonutrients found in green foods to help men achieve optimal health. It also provides 1,600 IU of vitamin D-3 to support colon and bone health. Enhanced with an advanced amino acid blend to fuel muscles and support recovery, and also cushions joints with collagen and hyaluronic acid.* This premium multivitamin formula also includes a B-vitamin complex to support energy production, as well as antioxidants for protection from harmful free radicals that can destroy healthy cells.*
- **Energy Formula** – A potent energy and metabolism blend including cocoa seed extract, guarana seed extract, capsicum seed, black pepper extract and natural sources of caffeine. This herbal formula is designed to help boost energy and metabolism and support physical activity.*
- **N.O. (Nitric Oxide) Formula** – A powerful blend of exotic herbs that men have used for centuries. This formula features L-arginine, an important amino acid and building block of nitric oxide that helps maintain blood vessel tone and helps fuel muscle cells during exercise.*
- **Milk Thistle** – Provides 200 mg of milk thistle seed extract to support healthy liver function.* As an athlete, the liver works hard to process fuel consumed for optimal sports nutrition.
