

for external use only

CALENDULA OIL

WHOLE FLOWER

HERB PHARM[®]

1 fluid ounce (30 ml)

Calendula Oil

Ingredients: certified organic olive oil & certified organic Calendula extractives.

We prepare our Calendula Oil from the whole flower of *Calendula officinalis* plants which are **certified organically grown**.

To assure optimal extraction of Calendula's bioactive compounds, the flower is harvested while in full bloom, and is carefully shade-dried to retain its full color & aroma. The flower is then thoroughly extracted and concentrated into cold-pressed, certified organic olive oil.
