

## Instant Protein Soy Mix Provides Heart-Healthy Protein

Three tablespoons of Instant Protein Soy Mix provide 16 grams of heart-healthy soy protein. That's why many people are choosing to replace saturated fat-laden meats and dairy products with naturally saturated fat-free, low-fat soy protein.

Instant Protein Soy Mix makes that choice easy, providing a simple and highly versatile way to add healthful soy protein to your diet without adding significant carbohydrates. Instant Protein Soy Mix can be added to virtually anything you cook or bake, or mixed into a delicious drink.

However you use it, each serving of Instant Protein Soy Mix provides 16 grams of healthful soy protein with less than 1 gram of carbohydrate. The soy protein in Instant Protein Soy Mix contains high-quality protein equivalent to the proteins found in meats, eggs, and milk and provides all nine essential amino acids your body needs but can't manufacture itself. This high-quality soy protein is produced under an Identity Preservation Program (IPP), which means that the soybeans are tightly monitored and controlled from planting through processing. Gluten-free. Non-GMO. No artificial flavors, sweeteners, colors, or preservatives added. Vegetarian formula. Naturally cholesterol-free. Naturally low in fat.

**NOTICE:** Use this product as a food supplement only. Do not use for weight reduction. Shaklee recommends the Shaklee 180® Weight Loss Program for weight management.

**NOTICE:** Should not be used by infants under one year of age without consulting a physician.
