Dietary supplement

myoviv.com

When magnesium alone is not enough.[†]

Muscle cramps are common and can affect anyone. The cause of this discomfort is an imbalance in the muscle's contraction and relaxation response. In the body, calcium creates muscle contractions, while magnesium promotes relaxation.[†] Muscle cramps occur when there is insufficient relaxation. Sometimes, even people who take magnesium supplements continue to experience discomfort. So when magnesium alone is not enough, Myoviv[™] is there to help.[†]

DIRECTIONS: Take 1 to 2 stick packets daily. Mix 1 stick packet in at least 3 fl. oz. of liquid, stir and drink.

OTHER INGREDIENTS: Organic sugar, modified starch, ascorbic acid, orange flavor, sodium chloride, calcium phosphate, stevia.
