Schizandra (*Schisandra chinensis*) is a vine native to Eastern Asia

with an extensive history of traditional use in China. Schizandra has been historically employed as a general tonic and "harmonizing agent" due to its ability to complement other herbs. More recent scientific research indicates that certain bioactive compounds found in Schizandra berry may help to support liver health, as well as the maintenance of the body's natural free-radical neutralizing systems.*

SUGGESTED USAGE: As a dietary supplement, take 1 capsule 3 times daily.

Schizandra

LIVER SUPPORT
