

Suggested Usage: Take 2 softgels 1 to 3 times daily with food.

Krill oil is known for its unique fatty acid (FA) profile, which includes EPA and DHA, plus phospholipids. In addition, krill oil naturally has astaxanthin, a powerful free radical scavenger and immune-supporting carotenoid.* Clinical studies have shown that NKO® krill oil can help to support joint comfort, healthy blood lipid levels already within normal range, and may help to maintain healthy feminine balance.* The phospholipid-bound forms of EPA and DHA from krill oil have also demonstrated exceptionally high bioavailability.*

This krill oil is manufactured under strict quality control standards. It is tested for potentially harmful levels of contaminants such as PCBs, dioxins, mercury and other heavy metals.
