

Suggested Usage: Take 1 capsule daily with a meal. Pantothenic Acid (Vitamin B-5) is a member of the B-complex family of vitamins and is found in nearly every living cell as a component of coenzyme A (CoA).* CoA is essential for the generation of energy from fat, carbohydrate, and protein.* It also plays a critical role in many biosynthetic reactions as well, being necessary for the production of fats, cholesterol, neurotransmitters, red blood cells, and adrenal secretions.* As such, pantothenic acid is vital for countless cell functions and the maintenance of healthy cellular metabolism.*
