

DIRECTIONS: Take 2 capsules twice daily, or use as directed by your healthcare professional.

Consult your healthcare professional prior to use. Individuals taking medication should discuss potential interactions with their healthcare professional. Do not use if tamper seal is damaged.

Benfotiamine is a well-absorbed, bioavailable derivative of thiamin. Once absorbed, benfotiamine readily converts to thiamine, an essential vitamin and cofactor in many metabolic reactions, including for transketolase enzyme activity, which is critical in managing advanced glycation end products (AGEs), a biomarker associated with aging. This formula is an excellent choice for improving thiamine levels and is indicated for cardiovascular and neurologic support.*
