OptiCleanse® Plus is a comprehensive nutritional formula that provides high-quality macro- and micronutrients associated with biological detoxification pathways. The formulation features 24 grams of VegaPro™, a proprietary vegan pea/rice protein; Aminogen® enzyme blend to facilitate protein absorption; activated B vitamins like 5-MTHF and Albion's patented mineral amino acid chelates for optimal nutrient bioavailability; and milled golden flaxseed that provides a source of omega-3 fatty acids and lignans, which may support estrogen modulation in postmenopausal women. When paired with a modified elimination diet, this formula nourishes the body's detoxification systems and fuels sustained energy production. This monk fruit-sweetened formula boasts a superior taste without added sucrose, fructose, or stevia and is suitable for vegans.*
