

This box contains a one month's supply: 60 tablets + 60 capsules.
ConceptionXR Motility Support Formula should be taken for at least three months or longer while you are trying to father a pregnancy, as sperm takes between 10-12 weeks to become fully mature and viable.*
Suggested Use:
Take two tablets and two capsules per day, with food. Do not exceed recommended dosage.
Keep pills in original packaging, away from heat and moisture, and out of reach of children.
