ANTLER FARMS®

Five Types of Collagen

Antler Farms® Multi Collagen is a complete source of 100% pure, hydrolyzed collagen. Our collagen contains five types of collagen (I, II, III, V, and X) from the best sources, including grass fed cattle, wild-caught fish, cage-free chicken, and eggs.▲

Pure & Clean

Using an enzymatic hydrolyzation process, collagen peptides are isolated, purified and concentrated to create a multi collagen that is pure and clean. Antler Farms® Multi Collagen is flavorless and odorless.▲

Highly Bioavailable

Antler Farms® Multi Collagen is optimized molecularly to be easily digested. Our collagen is highly bioavailable, rapidly absorbed and perfectly soluble in hot or cold liquids.▲
