

Suggested Usage: Take 1 teaspoon (5 mL) daily in 8 oz. of water or juice.

Shake well before use.
Refrigerate after opening.

Chlorophyll is a green pigment naturally produced by plants and algae and gives them their characteristic green color. Chlorophyll is critical for photosynthesis, the process by which sunlight is converted into chemical energy. Chlorophyll can function as a free radical neutralizer, may help to support the body's detoxification processes and has been traditionally used as an internal deodorizer.* This water-soluble extract is in the form of sodium copper chlorophyllin.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children. When taken orally, chlorophyll may cause diarrhea or green discoloration of urine or feces.

Note: Chlorophyll contains a green pigment that could stain your clothing. Handle with care. Chlorophyll may also stain teeth when taken undiluted. Use only as directed.
