Fresh-Pressed

Flora DHA Flax Oil is a vegetarian source of unrefined docosahexaenoic acid (DHA) blended with organic Flora Flax Oil to provide vegetarian (algae-derived) DHA. DHA is an omega-3 fatty acid that is essential in all stages of life.* In adults, DHA is essential for the proper functioning of the brain, and in the first six months of life, DHA is essential for the proper development of the nervous system and visual abilities.* Flora's DHA Flax Oil is pressed from certified organic flax seeds (third party certification) that have been carefully selected for flavor and maturity. Each and every batch of flax seed is also tested to ensure it is gluten-free. Flora's high standards guarantee this product to be GMO-free. The seeds are pressed in a state-of-the-art, low-heat, light- and oxygen-free environment—then bottled in light-resistant, amber glass to ensure maximum nutritional value and freshness. Flora's DHA Flax Oil provides omega-3 and omega-6 essential fatty acids (EFA) for the maintenance of good health.*
