LOT: BEST BEFORE

Flora's Golden Flax Seed is a good source of all-natural, high-quality fiber. The bulking and mucilaginous properties provide a gentle stimulus to the digestive tract.* Through a special process, Flora's Golden Flax Seeds are cracked rather than crushed or ground to ensure the maximum release of their nutrients without exposing the oil to oxygen. Flora's Golden Flax Seed is certified organic (third party certification) and nitrogen flushed when bottled to further ensure freshness. One tablespoon of Golden Flax Seeds provides 3 grams of essential fatty acids, as well as amino acids, minerals, and lignans.
